

Guidelines for secure Internet transactions and online shopping

VERIFY THE SELLER

For online shopping, always rely on websites with a good reputations or that you already used and trust.

Try to obtain as much information as you can about the seller and if you have any doubt, don't submit your credit or debit card information.

ALWAYS USE A SECURE CONNECTION

For any type of online transaction (Internet Banking, credit card payment etc.) make sure you are using a secured connection, marked by an *HTTPS* instead of an *HTTP*, at the beginning of the web page URL.

KEEP YOUR DATA SAFE

Think twice before saving your credit card data online.

Never share your PINs, passwords, tokens, one time passwords with anyone.

THINK BEFORE YOU CLICK

Banca Romaneasca will never send you emails asking for any type of personal data, credit card information, passwords, or containing links to other websites

INTERNET BANKING

When accessing our Internet Banking solution **e-bancamea**, make sure you are using the correct URL.

The safest way to do it is through our official website:
<https://www.banca-romaneasca.ro>
